Vision:

Our Goldfields Nullarbor landscape is protected, improved and productive.

Values:

- We are honest and open in our communication
- We respect the privacy of our members, landholders and stakeholders
- We use evidence in our decision making
- We are individually responsible but collectively accountable

STRATEGIC PILLARS AND OBJECTIVES

Programs and Activities

1.1 We have an integrated approach to the management of wild dogs

1.2 We aim to reduce Large Feral Herbivores (LFH) densities and their impact on pastoral production

1.3 We focus on priority declared weeds

Partnerships

2.1 We help facilitate a coordinated and shared responsibility in the control of declared pests

Governance

3.1 We are professional and accountable in our operations and governance

STRATEGIES: *What actions will be taken to achieve the strategic pillars and objectives?*

- Baiting is conducted at the most appropriate times and frequency to enable landholders to run livestock of their choice
- Trapping is conducted by a diverse range of landholders
- Camel trapping and destroying techniques are effective
- Landholders cooperate in the use of the LFH harvester
- Development and implementation of a Weed Management Plan to focus resources on the prioritised control of declared weeds
- We initiate a trial to determine the most effective biological practice that will control and mitigate the impacts of declared weeds
- We work with key partners to identify and map cacti and other declared weeds
- We engage, educate and partner with stakeholders and landholders to achieve the GNRBA objectives
- We engage, educate and partner with Indigenous leaders to achieve the GNRBA objectives
- Risk management is actively mitigated across all GNRBA operations
- Board and employee professional development is aligned to ongoing compliance and the strategic direction of GNRBA
- Our financial resources enable the achievement of our core business as well as strategic goals
